

Walk & Talk

Walk & Talk

copyright by Lizard Outdoorakademie

Free space in nature
creates space
for new thinking!

With "Walk & Talk" start each meeting in an unconventional way!

We will send you on an exciting excursion in the surroundings of your conference hotel. Search together and find the **Walklines** and **Talkpoints** in the field.

You work in the nature on seminar relevant topics and document the results for the rest of the seminar or training course.

In addition, we set team-building tasks that provide the conceptual free space to create new ideas.

When will you start your journey?
